A TIME FOR CHANGE

It's a time for change,
a time to begin anew,
a time for you to become
a part of this world too!

To let your feelings show,
to dream an impossible dream,
to let yourself not just be heard.
but also to be seen.

It's time for a change,
to grow stronger day by day,
to make the world seem brighter
even when it's grey.

It's time for a change,
time to become you,
time to see the light of day,
and always do the best you can do.

Marjean Stevens

MR. ROCHELLE-OUR FEARLESS LEADER

Mr. Rochelle was born in 1931 in Achille, Oklahoma. He is married to Wanda Jean. They together have produced four lovely daughters: Kathy 30, Tina 27, Reba 25 and Robin 23. He graduated from Achille High in 1949. After graduation he attended Southeastern State for nine years, graduating in 1952 with a Bachelors degree, and graduating again in 1958 with a Masters degree.

Between 1952 and 1956 Mr. Rochelle served our country by joining the Air Force as an instructor in radar operations. He later worked in public relations for the air defense command.

When his military career ended he began his first year of teaching. He taught at Cobb Junior High School and was a sports coach.

In 1957 he left Cobb and became a State Farm insurance agent. In 1958 he began teaching again but he continued his work for State Farm part time for two more years. Between 1961 and 1969 he taught at various Lawton schools such as Robert E. Lee, Lawton High and Central. In 1969 Mr. Rochelle became the first and only principal of our great school. Mr. Rochelle has been an outstanding citizen in Lawton for many years. He is involved with many activities. His favorites are M.H.S., of course, and attending the First Christian Church.

Mrs. Edith Ivie has been an English and Spanish teacher here at MacArthur for the last 15 years. This is Mrs. Ivie's last year here by the time September rolls around Mrs. Ivie will be in Kentucky with her family she says that she may do some substitute work every now and then. Mrs. Ivie says that she will miss the family quality at MacArthur that she has shared with students and staff Mrs. Ivie emphasized that she really hates to leave, but feels as if it is time to move on and make new memories. Were sure that Mrs. Ivie will have a great time with everything that she does and we also know how much her new students will love her, don't you? Good Luck Mrs. Ivie you are one special lady who will stay not only in the minds but also in our hearts.

Mr. Wallace Bridges is our new speech and drama teacher. He came to us from Watonga High School in Watonga, Oklahoma. He says that he wanted to come to MacArthur "because I heard that MacArthur needed a speech and drama teacher, and I also knew Mac was a great school with a happy atmosphere, it is comfortable and family like here. I would like to urge the school and community to support the speech and drama club in its activities with the same support that they use in other activities." Mr. Bridges' first Mac accomplishment was the one act play "Juvie" dealing with Juvinal hall. It received a second place award at the regionals held at Cameron early this year.

OUR MRS. COODY

Mrs. Coody has been involved with education for many years, she has a great faith in todays younger generation and feels that a person can do almost anything they set their minds to doing.

She enjoyed her high School years very much, she was active in a lot of her schools activities: drill team, civics, economics, National Honor Society, service club, F.H.A., F.T.A., Y-Teens, and many more.

Mrs. Coody's ambition was always to become a teacher, even as a child she pretended to be one, her advice to the 1987 graduating class is "to set a goal and strive for that goal but be flexible enough to realize that goals may change somewhat but always be what you want to be and always do what is right in the sight of God no matter what you feel like doing at the moment." Thats pretty good advice from a very special woman.

I wanna go in I wanna go in says Linda Dzialo

Our class president, Scott Bell.

MacArthur High is a school where the people are like a family- everyone supports each other. There is immense pride in our school that shows in the care and concern of every student and faculty member. But we are not too proud to forget who we are and what we stand for. We believe in ourselves and have been taught that our dreams are only one step away from where we are. Change can only help us, and at MacArthur High, change is with us.

Juan Carlos Garcia is a foreign exchange student from Spain. The challenge of attending an American school appealed to Carlos. He says that the sports are much better here than in Spain. Carlos enjoys soccer, watching "The Cosby Show" and "Miami Vice." Carlos also likes to attend BIG MAC'S spirited pep rallies.

Craig Robinson is head student manager of the football team. Craig's job consists of the management of the football team, mainly on Friday nights during the games. He is sort of a handyman in fixing and assorting pads, uniforms, fixing facemasks, ect ... It keeps Craig busy but he enjoys doing it. He feels being with his friends and this experience will help him work better with people in the future. Craig's advice to his classmates is, "Don't do anthing now that might hurt you later."

Regina Hoover is a sophomore at MHS. She is the president of the Sophomore class. She is a member of French club and is very active in F.C.A. Her first impression of highschool is "This is going to be alot different than Jr. high." "The juniors and seniors were really nice to me, I was so afraid that they would pick on us all the time."

When asked what her inspiration was, Regina said: "Having God in my life is the only inspiration I need."

Regina feels that being a Highlander is very exciting because we're the best school in Lawton. And you're absolutely right Regina.

Welcome to BIG MAC!!!

TYRONE CARRINGTON is a student who moved from the west side to the eastside. He is one of the few Sophomores to start on the football team. He got the starting position eventhough the competition from the Juniors and Seniors was tough. His stats show that he is a very good player, but Tyrone feels that all the team work is the reason why Mac is so successful this year. Students such as Tyrone make this school very special.

LARRY CORRALES "I think BIG MAC is pretty fun, I mean, it is my high school but, I do not consider myself a "Mickey Mouse." Most of my friends are juniors and seniors. Now, about me: I'm fifteen years old, I'm a member of S.B.A., F.C.A., and German Club. Basically, I'm a pretty good "all around" guy. My hobbies are girl watching and soccer playing. My goal in life is to become a very successful lawyer, have a good-looking wife, maybe even a couple of kids, and a different Porche for every day of the week!"

"I hated my first day of school as a Sophomore. The Juniors and Seniors were so rude! But I guess every one has to go through it at one time or another." Nickey is a Highlanderette and she enjoys being in it. But she'd really like to be a cheerleader next year. Nickey is a 3.8 to 4.0 student. Her favorite subject is Algebra II, and her favorite teacher is Mrs. Allison. She doesn't belong to any clubs because she doesn't want to. "I'm really glad I go to McArthur, and I'm proud to be a Highlander!"

David is a typical sixteen year old guy. He's a member of the Spanish Club and F.C.A. When asked about his favorite class, David replied, "LUNCH!, I mean drivers ed." His hobbies include catching snakes, racing bikes, sleeping (ALOT!), and riding freestyle skateboard. In ten years you would be able to find David in a lab, he plans to become a zoologist.

Lena is a Sophomore who enjoys spending time with her friends. Her hobbies are cooking and dancing. She also likes Italian food, and, why shouldn't she, with her parents owning Pizanos. Home-economics and English are her favorite subject, and Mrs. Teague is her favorite teacher. As far as school life goes, she likes it but hates homework! When she's not spending time with friends or doing homework, you can probably find her working her heart out at Pizanos.

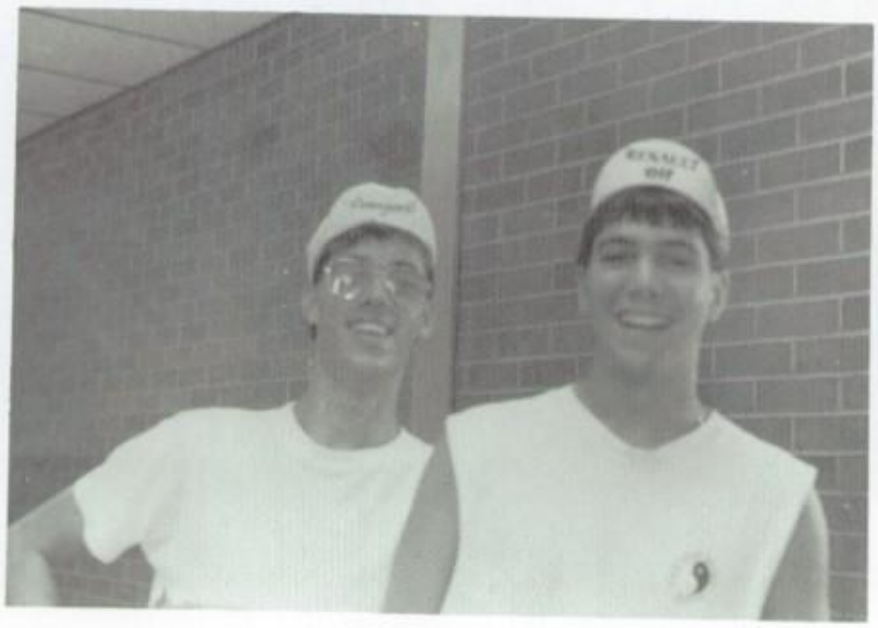
Chris Webb, a sophomore, thinks BIG MAC is a cool school. Chris works at UPS-N-DOWNS in the mall as a model.

She likes talking on the phone and just having fun. Chris said that she loves romantic things like sunsets, but she doesn't want a husband or kids because they are a burden.

She wouldn't mind, however, having a boyfriend that would understand her.



They come to us
So young and shy
With a sense of mature pride
Gradually coming out of their shell,
To a world that we think we know so well.

Becoming our brothers and sisters and good friends
They seem so young on the outside
But inside very mature
They're MHS Sophomores
The best you could get!

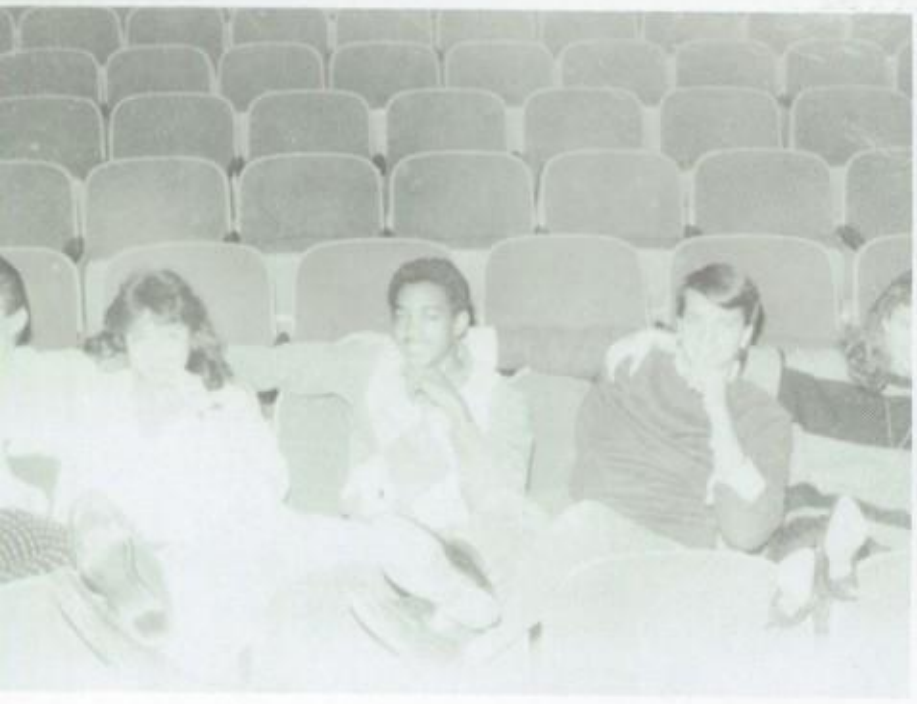
STUDENT BOARD OF AFFAIRS



BA Officers: Matt Hamilton, president, Melaine Carver, vice-president, Roy uest, secretary, Owen Tullos, treasurer and Beth Fields, parliamentarian.

Sophomores-Standing-Larry Corrales, Freitz Diehm, Earl Marshall, Mike Floyd. Middle-Renee Olis, Amy Cailett, Regina Hoover, Melinda Massey, Jennifer Patterson. Front-Amy Wilson, LaBette Garrett, Taryn Nehem, Carol Chaino, Megan McDonald, Angie Phillips

Student Board of Affairs is the student governing body of MacArthur. It is responsible for deciding issues that affect the student body. SBA organizes committees that run elections and organize school dances. SBA honors student and faculty of the month and builds student involvement with school spirit. SBA consists of five officers elected by the student body with representatives from each fourth hour class and twelve members-at-large. Each club and class president is automatically an SBA member. SBA meets each Wednesday during lunch and representatives then report to their fourth hour class. SBA strives to encourage their representatives in assuming responsibility, developing leadership skills, group cooperation and parliamentary procedures.

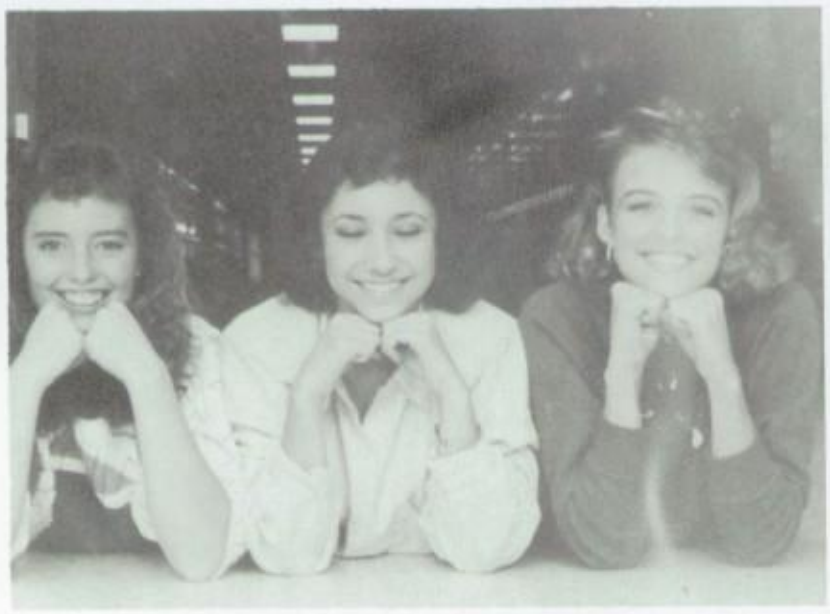
This years Highlanderette squad was a very exuberant group of girls, who put alot of time and hard work (and I mean hard!) and not to mention the money that was put into the routines performed at peprallies, football, and basketball games. And aside from doing these things they also compete at state competitions. And of course they make us all proud!!!

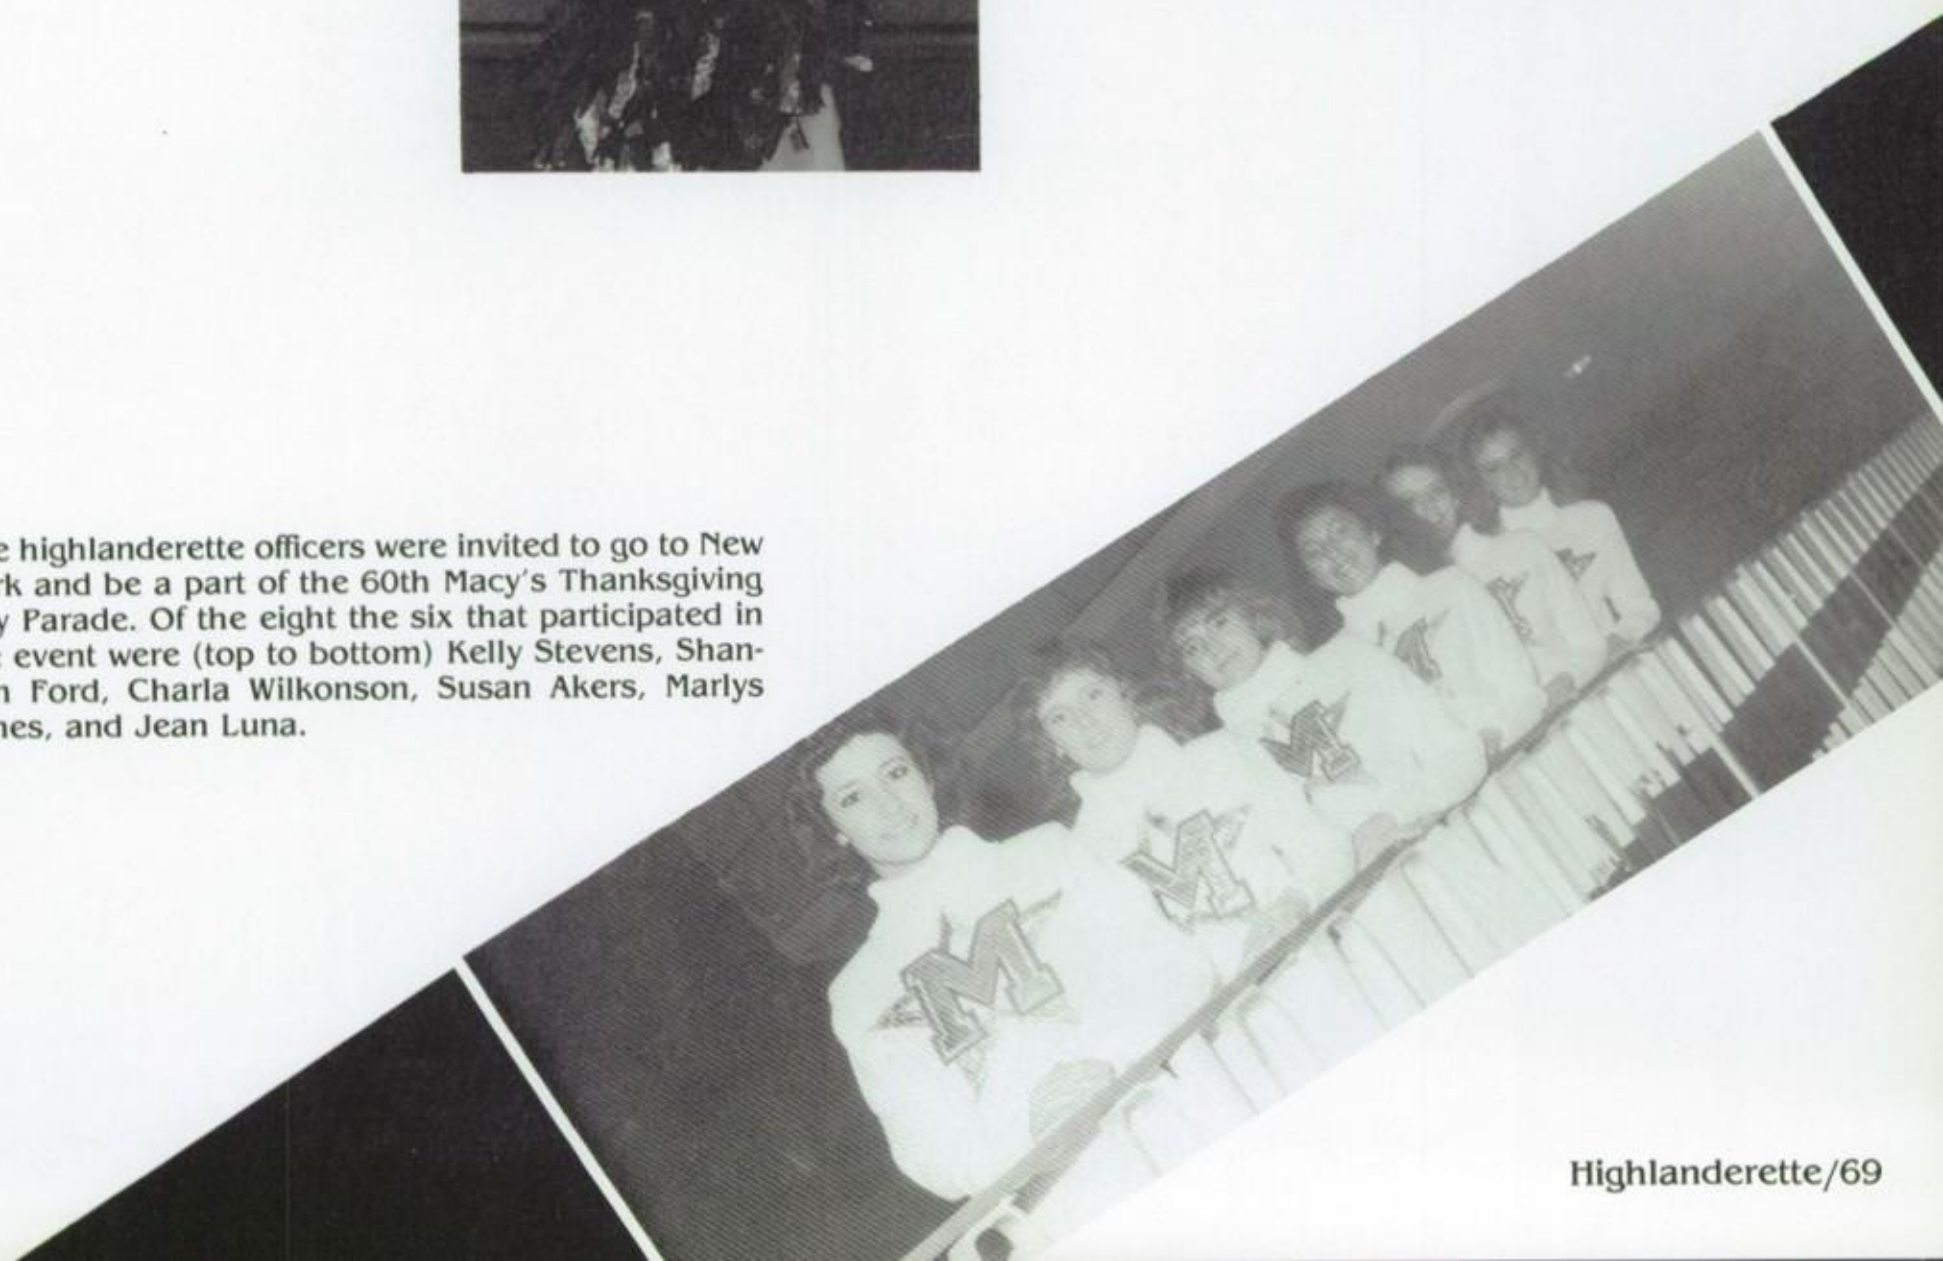
While the Highlanderettes were at camp this year Kelly Stevens, Jean Luna, and Beth Feilds were chosen as Super Star girls. They were offered the opportunity to perform at the Aloha Bowl in Hawaii.



Highlanderettes

Many awards were won by the Highlanderettes at camp this year these include: The Shining Star, The Five Star, and home routine award.

The highlanderette officers were invited to go to New York and be a part of the 60th Macy's Thanksgiving Day Parade. Of the eight the six that participated in the event were (top to bottom) Kelly Stevens, Shannon Ford, Charla Wilkonson, Susan Akers, Marlys Jones, and Jean Luna.



SPEECH AND DRAMA

MHS Lip Syncs

Speech and Drama has really been a blast this year. We got a new speech and drama teacher, Mr. Bridges, who came to us from Watonga High School in Watonga, Oklahoma. He is a super teacher and also a great friend. "I plan on taking my students to as many contests as possible this year. Hopefully the program will continue to grow as time goes on, and more people will be motivated and join the club and go to contest."

The Speech and Drama club's first fundraiser of the year was a balloon-a-gram with a message and a carnation for Homecoming.

The one-act play "Juvie" was another project that was profitable for the club. On top of that it was a real learning experience for EVERYONE. Mr. Bridges has a lot of projects planned for the Speech and Drama classes. Among them are monologues, short plays, body language exercises, lip syncs and contests. The lip syncs were a lot of fun, and some of them practically were like videos seen on MTV because students organized lights and sound for their own lip-syncs. They were as fun to be in as they were to watch. All of MacArthur will be on the edge of their seats to see what the Speech and Drama club will come up with next.

Tommie Johnson
The PREZ.

Front- Traci Phillips-Historian, Melinda Massey-Treasurer. 2nd-Patricia Harrison-Vice President, Tommie Johnson-President, Lynn Tilley-Secretary.

Front row- Stephanie Nunn, Dinisha Southwick, Hope Bramlett, Mr. Bridges, Leah Lloyd, Gwen Livesay, BJ Shelton, Melissa Smith. 2nd row- Wendy Ellington, Randy Gomez, Monique Williams, Lynn Tilley, Patricia Harrison, Tommie Johnson, Melinda Massey, Traci Phillips, Angie Phillips, RaeDawn Bogle. 3rd row-Robert Stewart. Mike Linley, Christina Barnes, Jeanie Mason, Dina Slaughter, Christian Price, Charlotte Nicholl. Back row- Pam Lindsay, Madalyn Antoine, Nichole Ware, Angie Adams.

"I look marrrvelous today." "Oopps!" "Those deep knee-bends will get you every time." Mr. Bridges supposedly split his pants while leading one of his classes in warm-up exercises.

Brent Hammond ("Skip"), RaeDawn Bogle ("SUNNY"), and Marc Dobbins ("Andrew") in the play "JUVIE" were all chosen for the All Star Cast at the Regional One-Act Play Contest held at Cameron.

Pam Lindsay ("Jean") in the play "JUVIE" received the Acting Award at the Regional One-Act Play Contest held at Cameron.

The cast and crew of the play "JUVIE" took the play to the Regional One-Act Play Contest and took second place. The cast and crew were as follows: front-Jeff Horn. 2nd row-Brent Hammond, Patricia Harrison, Traci Phillips, Leah Lloyd, RaeDawn Bogle. 3rd row-Tommie Johnson, Alicia Scott, Melinda Massey, Pam Lindsay, Madilyn Antione, Marc Dobbins. The ROTC program is a cooperative effort between the Army and the high school to promote leadership and citizenship. The years of training increase responsibility and respect for constituted authority. Cadets receive many skills and invaluable self-discipline for those who take it seriously. These outstanding cadets are very proud of representing the MacArthur Highlander ROTC program.

"C" COMPANY
Commander:
David Daniels

The Great Plains Area Vocational Technical School not only serves the three Lawton High Schools, but also the surrounding area. In place of academic classes, Vo-Tech offers training in technical skills. Full time programs include: Air conditioning/Refrigeration, Carpentry, Masonry, Plumbing, Residential/Commercial Wiring, Machine Shop, Auto Body, Welding, Auto Mechanics, Business/Office Practice, Medical/Dental Secretary, Distributive Education-/Marketing, Fast Food Management, Banking, Savings and loan, Health Occupations, Practical Nursing, Drafting, Graphic Arts, Electronics, and Food Service.

I John 1:3

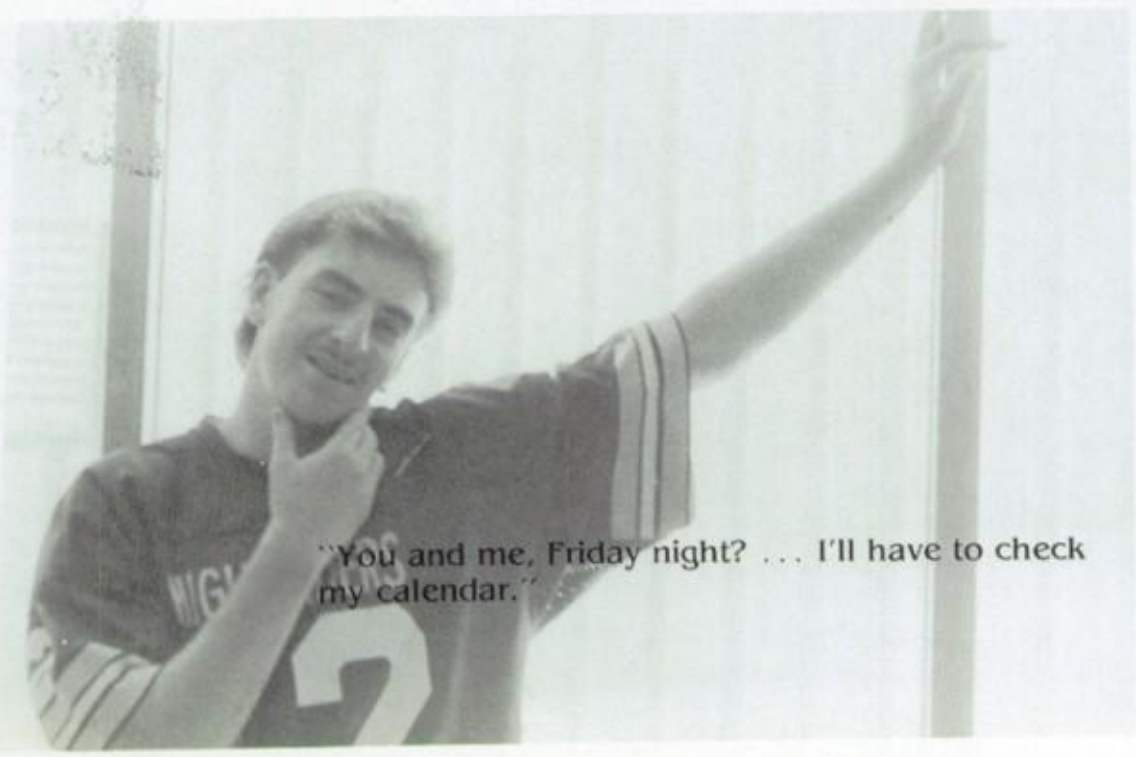
That which we have seen and heard declare we unto you, that ye also may have fellowship with us: and truly our fellowship is with the Father, and with His Son, Jesus Christ.

Being a member of the fellowship of Christian Athletes enables you to meet new friends and bring everyone closer together. FCA is not only for athletes, but for anyone who is interested in some good fellowship. FCA was first started in Norman, Oklahoma in 1954 and has continued throughout the years. One member of FCA describes it as... "Good Clean Fun!!".

-The FCA officers

"Is Choe for real?!?"

SPONSER - MR. SANDERS



"You and me, Friday night? . . . I'll have to check my calendar."

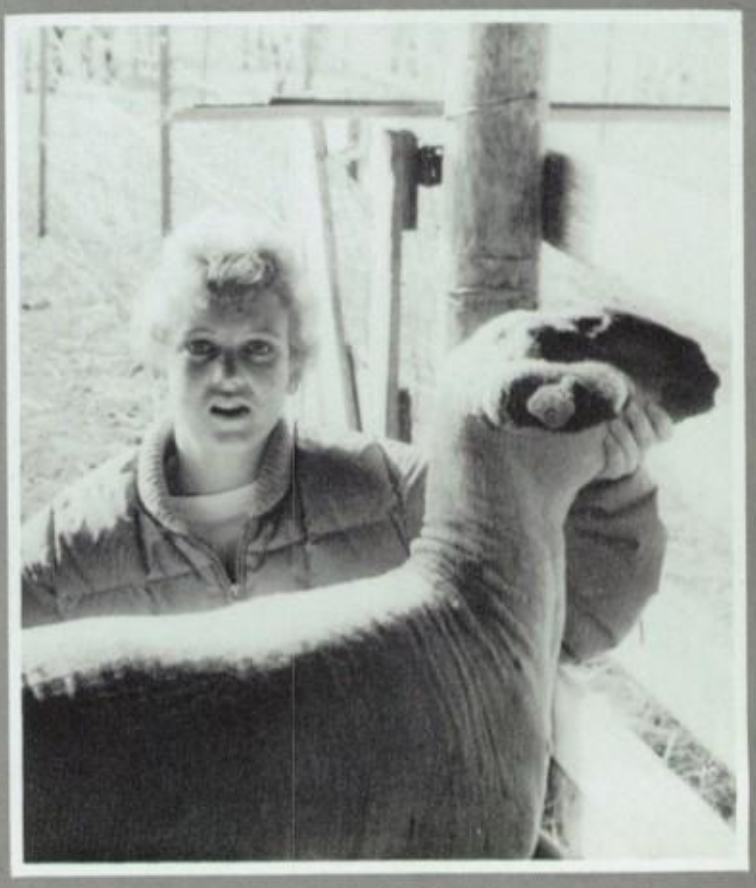
F.F.A.

The Future Farmers of America is a vital part of Vocational Agriculture here at MHS. A student involved with F.F.A. here at MHS is offered many activities in which to broaden their responsibilities and experience. With projects such as group activities dealing with community work, leadership development, livestock shows and various F.F.A. functions, students are able to meet people who share their interests and goals and can develop a sense of pride in their work, their school and themselves.

HORTICULTURE

Horticulture is the hands-on study of plants. Students actually work in the school greenhouses, learning to work in gardens, arrange flowers of various types and record keeping. They are able to identify different trees and flowers and plants, and learn how to properly care for their plants. The technique of growing plants is also learned by the students. Each student is responsible for a project in which he or she grows plants throughout the year. Our horticulture class is quiet, and not much is heard about them, but it is another important class to MHS students in which they can share responsibility, experience and fun.

While participating in FFA, a student has the opportunity to carry out a Supervised Occupational Experience Program, or SOEP, in which a student owns his or her own livestock and maintains it on our 80 acre farm. Our farm provides another hands-on experience in caring for farm animals, and allows each student to strive for perfection in farming techniques and animal care.



Le Circle Francais

The French Club stayed busy this year. We designed a new sweatshirt sporting Snoopy and Woodstock in front of the Eiffel Tower. Then we sponsored an ad in the Lawton Constitution congratulating our "City Chamption" football team. We also took time to decorate the hall for Homecoming and won first place in the competition. In October we had a "Monster Mash" which required costumes and fun, and there was plenty of both. In December there were annual events such as caroling along with a pizza party and the "Candy Cane Express". We donated toys to the "Toys for Tots" and the French classes contributed over $250 to buy Christmas gifts for the needy children. The spring sees plans for a trip to Six Flags and a party honoring the Seniors.

Keywanettes is a girls club that is dedicated to serving their community in whatever way they can. The Keywanette club of MacArthur is sponsered by the Northwest Kiwanis Club of Lawton. We are always willing to volunteer our time and energy to help better our lives and the lives of others around us.

Sponsor-Linda Ferguson

Science Club

The 1986-87 MacArthur Science Club are: 1st row- Gina Edmonson, Jennifer Merritt, Audra Kelman, Windi Ellington, Dawn Edmonson, Bryan Hawk. 2nd row- Katrina Barnes, Dawn Barker, Hope Bramlett, Chrystalk Trom, Angela Young, Victor Reece. 3rd row- Todd Linley, Shannon Haight, Margaret Johnson, Jerry Ramos, John Snyder. 4th row- Mike Linley, Chris Smith, Derrell McPherson

The MacArthur Science Club has been pretty active this year. They have had sevcral bake sales and other fund raisers so far. Their sponsors, Mr. Wright and Mrs. Hawk have been here at MHS for 6 and 8 years respectively. Both sponsors say that they "really enjoy working with the club. We have a really good group this year too." The club is planning a fun trip at the end of the year, "probably Six Flags or some such place."

The Science Club built a huge repleca of a cell in a classroom this year. It was a lot of work and alot of fun. The cell took approximately three weeks, planning and work included. They would like to thank Mike Fissinger for donating large sheets of plastic that were needed to complete the cell.

NATIONAL HONOR SOCIETY

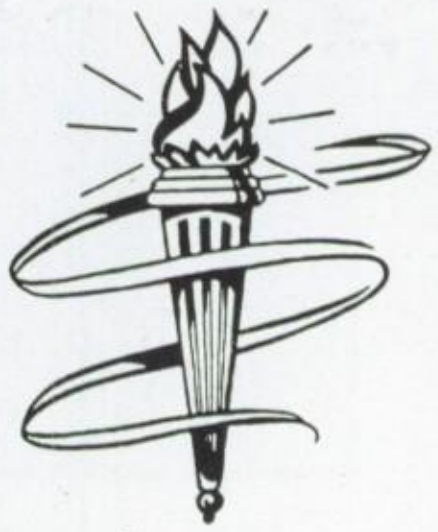
Mrs. Teague-Sponsor



The National Honor Society is an organization that recognizes those students who have a grade point average of 3.50 or above. Membership is based on four factors: Scholarship, Service, Leadership, and Character. The election of members is made by a board consisting of the principal and no less than four members of the teaching faculty. A National Honor Society member must maintain certain standards in order to retain his or her membership. The main purpose of this organization is to create an enthusiasm for scholarship, to stimulate a desire to render service, to promote worthy leadership and to encourage the development of character in all the students going to MacArthur High School.

NHS officers (l. to r.)-Shannon Ford-Sec., Victoria VanMeter-Hist., Rafael Santos-Pres., Charla Wilkinson-V.Pres., Lamont Buckner-Tres.

ACADEMIC DECATHLON

Being a member of the Academic Decathlon team is an enriching experience for everyone-no matter what your grade point average is. You don't have to be a "brain" to be a member of the team.

This years team had people from many various backgrounds, such as arts, athletics, and of course . . . academics. They were not only intelligent people, they were also actively involved in clubs and the community.

As members of the Academic Decathlon team we worked together by encouraging each other to do their best. We wished each other well during the testing and applauded the scores. During the Super Quiz we cheered each other on in a show of support and pride in our school and in each other.

Our thanks to our excellent coaches, Mrs. Teague and Mr. Lee.

Join us next year for the fun!

GIRLS TRACK

Sally Walker has been the girls track sponsor for six years now. We appreciate you, Sally!

Track is a very taxing sport. It requires a lot of speed for the sporting events, and endurance for the distance events. It requires a lot of discipline and dedication on the part of the girls. It is hard work! Our Mac Ladies have both dedication and discipline and we're proud of them, so is Mrs. Walker. She speaks highly of all of them.

Keep up the good work girls!

Cameron University, Lawton, Ok.

OPPORTUNITY EDUCATION

"What is concurrent enrollment?" This question was put to Sean Hutchinson of Cameron's High School/University Relations. Mr. Hutchinson explained that concurrent enrollment is a program designed for early enrollment of high school students who wish to have a head start in college. High school students become eligible for early enrollment the summer following their junior year. Two classes are the maximum for high school stuidents who wish to attend the summer session.

In their senior year, students can be concurrently enrolled in both high school and college. The requirements for concurrent enrollment are simple. A senior must be able to complete graduation requirements by the Spring of his/her senior year. This student must also have an ACT composite score of 18 or above and have less than five(5) classes all together.

Mr. Hutchinson says Cameron is very receptive towards students who wish to participate in the concurrent enrollment program. In fact, Cameron University has set aside funds for concurrent enrollment scholarships in order to encourage more Lawton students to participate in the program. The scholarships will be offered to selected group of 50 students (from Lawton) based on their potential for early college enrollment. The scholarship will pay tuition for two classes of the students choice. The scholarship will not pay for books or other expenses of the classes taken.

The concurrent enrollment program is an excellent way to get recognition in scholarship competitions. For beginning freshmen, having previous college credit is a definite plus for scholarship applications.

Concurrent enrollment is more than starting college early, it can teach you what is expected "in the real world" of young adults in our society. It is more than a program of learning, it is also a program for growing up and facing the responsibilities for the future.

Sean Hutchinson, Cameron University's High School/University Relations

Getting Ahead . . .

Leah Graves
1st. semester: Composition I
2nd. semester: U.S. History Since 1865

"I think college is alot different from high school. The teachers don't fool around, they're very direct and to the point. But they won't work with you, they don't care if you get your homework done or not. They are also very strict. However, they do give office hours when you need to talk to them.

The students are more mature. They don't judge you by what is outside, but what is inside. There are less cliques, and there is a relaxed atmosphere. They care about each other and form study groups to help each other with their homework."

Richard Murphy
1st. semester: Composition I

"There were twenty-five(25) students in my class. I only knew two(2) people at Cameron. The students are normal kids who do what they have to do to pass the class. We had homework only about once a week. Other than that, we just had to sit in class and listen. I went to Cameron for the experience of college life. I also wanted to take a class because I was curious about college. Another reason I went to Cameron was because I liked the idea of not having to come to high school three or four days a week."

Melissa Harig
1st semester: Honors Composition I
French I
2nd. semester: Honors French II
College Algebra

"I love the people! Everyone has different backgrounds, you never get tired listening to the many experiences of your classmates. I like the teacher/student relationship that develops during the semester.

I like being treated like an adult. I like learning new and exciting things. I am so glad I chose the program for my senior year. I feel I am not wasting my time at Cameron taking classes that will make my future education easier.

Would you believe there are people at Cameron that are weirder than I am? Well, there are!!

WHAT'S THE DIFFERENCE?

The ACT and the SAT are different in several ways. For one thing, they are designed to measure different potentials for college education. The ACT is set up to measure the information acquired beginning with elementary education. The SAT is not an aptitude test as the name suggests. It is a test to measure the "learning capacity" of an individual. So you can see, the ACT is a test of what you already know and the SAT is a test to predict how successful you would do in college. There is no penalty for guessing on either test, so it's to a person's advantage to read the books that have been specifically written to aid in preparation for these tests. Some colleges require a score from one or the other of these tests. Special conversion tables have been formulated to convert scores from one test to the other. Information on either of these tests are available in the councelor's office.

Carreer guides, college information booklets, scholarship directories are available in the library for student use.

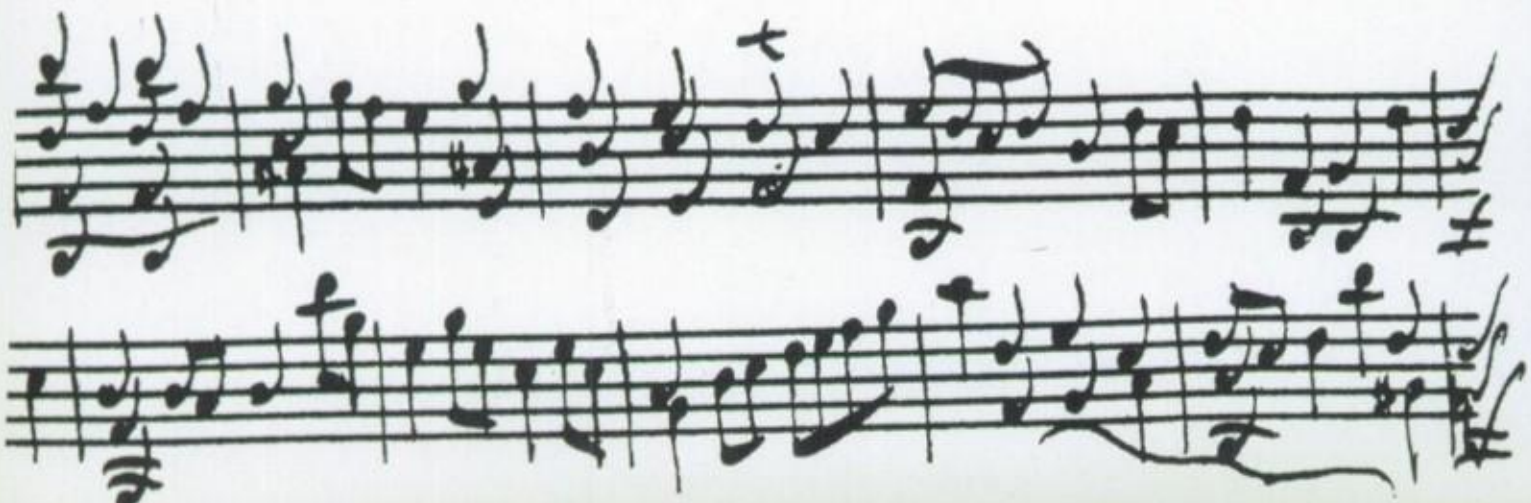
MHS VARIETY SHOW!



PEOPLE AT WORK

"My experience in working and going to school has helped me in organizing my responsibilities. In a way, by sorting my priorities. My top priority is school. It comes first because education is where my future lies. Having a job helps me to socially prepare myself as well as organize myself. But most importantly, working is a new and fun experience." - Lucy J. Miranda, McDonald's

"I feel that working and going to school is a great challenge. Being able to work and still go to school has taught me to be more conservative and more responsible. I also get to meet new people and learn new things. Both have affected my life in a positive way by giving me the experience I need for the future." - Billie J. Hatton, Taco Bueno

"Working and going to school usually doesn't bother me, until I have to work late and get up early for practice the next day. But working in a clothes store is a lot of fun - and I love it!" - Susan Akers, UPS & DOWNS

"I think most students can handle both a job and school and end up with good grades. If you manage your time and have an employer who remembers what it was like to be in high school, it should all fit in. My grades don't reflect this, but that's another story . . ." - Tom Metzinger, Sears

"I like working and going to school at the same time. It gives me something to do instead of going home and watching t.v. The only problem I have run into has been immediately spending the money when I get my checks!" - Lisa Fields, Chess King

"Well, working and going to school isn't as much 'fun' as I thought it would be. It's a lot of responsibility, and has its good and bad points. I've got an income now, and a car to show for my money, but I don't get to spend that much time with my friends and family, and I think that is important." - Kami Bell, The Melody Shop

"Before I started working, things came pretty easy. I had family, good grades, and a lot of time to just laze around and have fun. Now I have a job and all my time is either spent at school, doing homework, or working. It's not too much fun, but I enjoy the money. I also don't have much time to enjoy my family. I can't remember the last dinner my mom cooked for me." - James Mortson, Safeway

"I feel that working while I attend school makes me more aware of the responsibilities that I will have to face after I graduate from high school. The main effect it's had on me is that I've had to learn how to budget my time so that both my job and homework are taken care of. The only thing I don't like about working and going to school is sometimes I miss some school functions, which I may regret years from now. But I believe this is one true way of learning responsibility before leaving high school." - Thomas Duty, Taco Bueno

"Working while going to school is kind of hard. It isn't easy staying up until 1:00 a.m. doing homework, knowing you've got to get up and go to school the next morning. It made me more responsible. It is hard work, but I think everyone should have a job during high school. You don't have a lot of time to do homework, and you don't want to do it either, but you're making money so you can buy a car or just go out and have fun." - Tisha Winfree, Red Lobster

"Although I work only a few hours on the weekend, having a job still limits some of the things I like to do. Since I work only on weekends, my job doesn't interfere with school. Having a job makes me a little more independent by buying things I want with my own money." - Elizabeth Stratton, Video Bug

"Well, I think that I'm getting a double learning experience. By working I get an idea of what is going to happen after high school so it won't be a big surprise to me. Sometimes the long hours, getting home at 11:00 or 12:00 at night, and having to do my homework makes me real tired, so I don't really listen well in school the next day. Even though I don't get that much rest and I don't get a lot of time to do the things other kids get to do, it's still a lot of fun." - Traci Waits, KayBee Toys

"I feel that a person should only work while going to school if a person wants to. I sometimes find that it is hard to do both, but it may be easier for a straight A student. I feel that if a person has to work, it would be best to work for only two or three hours on weeknights, and whenever on the weekend." - Tracy Anfinson, McDonald's

"I feel that working and going to school gives me a chance to take on different responsibilities, and allowing myself the opportunity to see if I can handle them." - Kim Shirley, Zee's

"I think working and going to school is o.k. as long as you don't overdo it. I do most of my homework before my classes begin. Sometimes I have time to do it before I have to go to work. If it seems like I won't have too much time for some fun or my boyfriend, I make time. Where there is a will there is a way!" - Yvette Gonzalez, Buy For Less

"I'm a pharmacy clerk at Earl Drug South and I love my job, but I work every day after school so I don't have a lot of time to do the things I like to do." - Patty Sealy, Earl Drug South

"I think working and going to school at the same time is great, as long as neither takes up too much time. I guess I'm lucky to have time for school and friends and still have time to be "Mr. Rock & Roll". The only drawback is that working from 12:00 a.m. to 6:00 a.m. on the weekends isn't most people's idea of a wonderful job." - Brent Hammond, KRLG

"Working after school is a real pain. I have very little time for homework when I get home. Even though working is a real pain, those paychecks look good every two weeks!" - Billy Fullingham, Four Seasons

Two About MHS

"I have two memories that have equal importance to me. One is every graduation night when I see young men and women and know that they have overcome problems in their lives and have succeeded in reaching on of their most important goals- which is completing their high school education. The other one is seeing the light in the student's eyes that comes when he's been able to overcome difficulties or solve a problem that has made life discouraging."

"My favorite classes were English with Mrs. Powell and Mrs. Ferguson and drama with Mrs. Dirickson.

It's time for a change,
to grow stronger day by day,
to make the world seem brighter
even when it's grey

It's time for change,
time to become you,
time to see the light of day,
and always do the best you can do.

"My first day at MHS was the week of Thanksgiving of 1978. I was in charge of vocal music and activities director. I had two different offices wearing two different hats, and most of the time I couldn't remember where I was supposed to be and when."

"My most influential teachers have been Mrs. Hernandez-she's been cool to me; she's my art teacher. Mr. Lee and Mr. Merritt are both good math teachers. Mrs. Ivie is easy-going and Mrs. Powell gets involved with her students."

"What makes MHS different from any other school is that the students are hard working and are talented - especially in the arts."

From: Roberta

"My home here is very different from my home in Geneva," says Juliette Mattmann, MacArthur's foreign exchange student from Switzerland. Here in Lawton, she is staying with a host family that has five children. She said living in a house with five kids was hard getting used to. In Geneva, Juliette lives in an apartment with her parents and her sister.

When asked why she choose Oklahoma, Juliette said that Oklahoma was chosen for her. She explained that when a person applies for the exchange program, copies of the application and photo are distributed to agencies all over the U.S. From which, host families choose the student whom they would like to stay in their home. Juliette says she misses her parents very much. When asked how her parents felt about her coming to America, she said her father was the one who suggested being an exchange student. Juliette's mother didn't want her to go at first, but changed her mind later on, deciding it would be a good experience for her. Juliette said she wasn't scared of leaving her birthplace for a whole year. She has lived in Switzerland all her life. This is her first time in America. "I like it a lot!" she says, when asked how she likes the U.S. So far, she has been to Washington, D.C., Maryland, Texas, and the infamous Chicago Airport.

Juliette likes the young people here in the U.S. She likes the fact that teens can dress and act the way they want. In Geneva, Juliette says the young people are very clothes conscious and like to dress like everyone else. Matching colors and textures are very important when considering the passing fads.

"What do you and your friends do for fun?" Juliette answered this question, "Cercle des Jeunes". The circle of the young people is a house where teens can get together to talk, dance, and listen to music. There is usually a party every month at the "Cerce des Jeunes". When Juliette and her friends go to the house, they stay late on Wednesday nights since there is no school on Thursday.

The kids in Geneva usually start dating at the age of thirteen. Since one cannot drive until the age of eighteen, the bus is the only mode of transportation. When young people start to date, the most frequented place is the lake. There, the young couples can walk or roller skate on the cement path or they can eat ice cream. Movie-going is also a favorite past time. In the theater, one can see American movies in English or French, both with German subtitles.

Peer pressure has a large effect on the teens of Geneva. Alcohol and drugs are problems that concern the community. Cigarette smoking is a really serious problem of the younger kids. Mopeds are popular to have if one is too young to have a car. Weight control is not a concern of the women since they eat less junk food than we do. When they do get the American munchies, they go to one of the three McDonald's or Wendy's in Geneva.

"The school here (in Lawton) is different from my school in Geneva. Seven classes are required in European schools. The school day starts at 7:55 and ends at 4:15 P.M. The whole class stays together as a group and moves from one room to the other, so the same people are together all day long. All European schools require two hours of physical education a week and two hours of Art a week, whether you want to or not. Most of the students go home for lunch. For the students who have troubles with their studies, during lunch there are free tutoring sessions.

Juliette says the teachers are nice but if you misbehave, talk in class, or chew gum, the teacher will send you to the office. If a teacher decides she doesn't like you, you have to sit in back of the class and won't talk to you. For those students that get in trouble, a place kind of like our Alternative Room is open on Thursdays (one of the days the school is closed) In Switzerland, Thursdays and Sundays are days off, school is in session on Saturday mornings. Juliette says she likes the school here better. In Geneva, there are no activities. There are no clubs, sport teams, or yearbook. There are only two assemblies a year. School vacations are relatively the same. There is Christmas vacation, Spring Break in February (when it is still cold enough to go skiing.) One vacation that we don't have Is Potato Vacation. Potato Vacation is a week in September for farmers to have time to harvest their potatoes.

Since there are no clubs at school, Juliette enjoys playing tennis with the tennis club at the apartment complex where she lives.

The school system is different. Grades ten through fourteen are considered college and one can become a teacher or social worker direct from school. The rules are more lenient towards the students. Kissing is allowed in the halls since a kiss on the cheek is the customary greeting between friends. Holding hands and walking arm in arm is also acceptable.

Juliette is fleuent in three languages. She has taken three years of German and three years of English in school, French is her native language.

Juliette misses her friends very much, they call her at least once a month to find out how she is doing. The year she is spending at MacArthur doesn't count towards her completion of school. Once she is back in Switzerland, she will repeat her tenth grade year.

Juliette hopes to go to California for Spring Break. She enjoys babysitting for extra money, and enjoys spending her own money on new clothes.

All of us here at MacArthur High School hope Juliette enjoys her stay in Lawton. We wish her the best of luck on her return to her homeland.

ADIOS!

"I've taught thirty-one years of Spanish and English altogether. The last fifteen of those years were taught here at MacArthur High School.

I feel the best thing at MacArthur High School is the family atmosphere. I really like the closeness between the students and the teachers here at MAC.

I plan on teaching Bilingual Education after I leave MacArthur. I hope to teach at a college near my daughter and her family.

If I could change anything about my past teaching, I would change the teaching techniques. I would also have students practice speaking their Spanish more often.

I liked doing things with the students here at MacArthur. I liked taking trips with the Spanish club members and helping plan the Christmas parties and the Spring fiestas. I thoroughly enjoyed taking the summer trips to Mexico and Spain.

I regret leaving M.H.S.. I'm going to miss all of the faculty and the students because I feel as if we are all one big family."

Mrs. Ivie celebrated her birthday with the help of her Spanish students.

Mrs. Ivie with several of the Spanish club members.

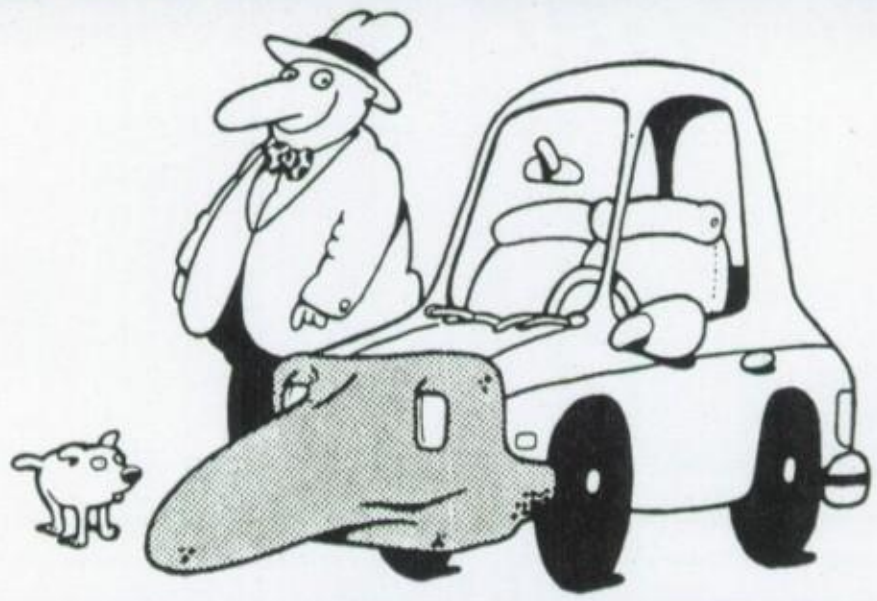
FREE NOSE JOB WITH EVERY BRA.



TIDY CAR POLISHES YOUR FRONT END FREE WITH EVERY BRA PURCHASE.

Nobody understands protection the way Tidy Car does. That's why Tidy Car cleans and polishes your car's front end FREE before fitting it with a stylish Front End Bra. That way you're sure there's nothing underneath that can harm your car's finish. And every Tidy Car Front End Bra is custom tailored so you get a smooth, tight fit that won't balloon at highway speeds. The special soft knit backing doesn't scratch paint or trap moisture the way some covers do with their flannel-type backings. And thanks to a special breathable, mildew resistant material, there's no need to remove the bra when it rains or snows. Why not slide into a Tidy Car Front End Bra today.

STOP BY OR CALL A TIDY CAR TOTAL APPEARANCE CENTER TODAY.
